SMITH'S TONIC SYRUP.

FOR THE CURE OF

FEVER and AGUE

or CHILLS and FEVER.

The proprietor of this celebrated medicine, justly claims for it a superiority over all remedies ever offered to the public, for the SAFE, CERTAIN, SPEEDY, and PERMANENT cure of Ague and Fever, or Chills and Pever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many case, a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect resto-ration to general health. It is, however, prudent and in ere certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long stand-ing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, bowever, require a cathartic medicine, a single dose of BULL'S VEGETABLE FAMILY PILLS will be suffi-

cient.

The genuine SMITH'S TONIC SYRUP must have DR.

JOHN BTLL'S private stamp on each bottle. DR. JOHN
BULL only has the right to manufacture and sell the
original JOHN J. SMITH'S TONIC SYRUP, of Louisville, Ky. Examine well the label on each bottle. If my

BULL'S

SARSAPARILLA.

Dector John Bull—Deer Sir:—Many thanks to you for the medicine you have so kindly given me. I have been a great sufferer for years, and had the advice of various physicians. Some pronounced my spine, some my lungs, and some my heart to be the sent of my disease. I have been burnt, blistered, and cupped, till I had become disheartened. Several very eminent physicians who examined my spine informed no that I was threatened with paralysis or appopiety any day, and that nothing but a seton would relieve me. I had a perfect horror of that, and was hesitating about having one inserted, when you kindly sent me your Saraaparilla, which I immediately begun to take three times a day. I suffered terribly with a most acute pain in the right side of my head, especially when I would read or write for any length of time, and on rising to my feet, I would be perfectly blind for several minutes, and would have to hold to something to prevent falling.

is entirely relieved; I suffer but seldom with my spine, and then not so contelly. My appetits is good; indeed, for the first time in my life; I enjoy my dinner more than any meal during the day.

You kindly sent me four bottless again last night, and I began again this morning, and I hope to be entirely relieved. Please accept my heartfelt thanks and best wishes.

Very truly your most grateful first.

M. B. C. RIVERS.

My Journal abounds with similar letters, all of which I guarantee to be genuine and written by the persons whose name they bear.

Do not suffer yourself to be imposed on. Don't be drawn away after new and doubtful experiments. Don't risk your health by letting novices experiment upon you

it is still the Sarsaparilla of the day, and of the age, tow-ering over all others in popularity, and in its curative

Avoid all those who are trying to palm off on you other extracts of Sarsaparilla, so called. Remember, it is Dr. John Ball's Sarsaparilla, of Louisville, Ky., that is the old and reliable remedy for impurities of the blood, and

crofulous affections. Always bear that in mind. ANOTHER TESTIMONY.

BENTON BARRACKS, Mo., April 30, 1866, or John Bull—Bear Sir.:—Knowing the efficacy of arrasparilla, and the healing and beneficial qualiposeesses, I send you the following statement of tice it possesses, I send you the indusing state in yease:

I was wounded about two years ago, was taken prisoner, and confined for sixteen months. Being moved so often, my wounds have not heated yet. I have not sat up a moment since I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist nature. I have more faith in your Sarsaparilla than anything else. I wish that which is genuine. Please express me half a dozen bottles, and oblige.

CAPT. C. P. Jostisson, St. Loois, Mo.

P. S.—The following was written April 30, 1816, by Mrs. Johnson; mother of Capt. Johnson:

Dr. John Bull—Dear Sir.—My husband was a skillful surgeon and physician in Central New York, where he died, leaving the above C. P. Johnson to my care. At thirteen years of age, he had a chronic diarrhea and scrufula, for which I gave him your Sarasparilla. It cured kins. I have for ten years recommended it to many in New York, Ohn, and lowa, for acrosing, fever-sores, and general debility. Perfect success has attended it. The cure effects, in some case of acropials and fever-sores, arere almost miraculous. I am very anxious for my son to again have recourse to your Sarasparilla. He is fearful of getting a spurious article, hence his writing to you for it. His wounds were terrible, but I believe he will recover.

Respectfully.

JENNIK JOHNSON.

BULL'S

WORM DESTROYER.

FXTRACT OF A LETTER FROM GEORGIA.

VIII.ANOW, WALKER Co., Ga., June 22, Ductor John Bull—Dear Sir:—I have recently given your Worm Destroyer several trials, and find it wonderfully efficacious. It has not failed, in a single instance, to have the wished for effect. I am doing a pretty large country practice, and have daily use for some article of the kind.

I am, sir, respectfully.

JULIUS P. CLEMENY, M. D.

P. S.-So unequalled and num in favor of my Worm Destroyer, that newspaper space entirely too small to tell its merits. It is an infallible remedy for Worms. Try it, and be onvinced. See my Journal for a more full description. JOHN BULL.

SMITH'S TONIC SYRUP,

BULL'S SARSAPARILLA. BULL'S WORM DESTROYER.

C. B. BICKFORD & CO., TROY, KANSAS.

Aseful and Curious.

The Royal Humane Society of England has issued the following seasonable advice to bathers: "Avoid bathing within two hours after a meal, or when exhausted by fatigue or any other cause, or when the body is cooling after perspiration; and avoid bathing allogether in the open air if, after being a short time in the water, there is a sense of chilliness, with numbness in the hands and foct, but bathe when the body is warm, provided no time is lost in getting into the water. Avoid chilling the body by sitting or standing undressed on the banks or in boats, after having been in the water, or remaining too long in the water, but leave the water immediately there is the slightest feeling of chilliness. The vigorous and strong may bathe early in the morning on an empty stomach, but the young and those who are weak had better bathe two or three hours after a meal; the best time for such is from two to three hours after breakfast. Those who are subject to attacks of giddiness or faintness, and who suffer from palpitation and other sense of discomfort at the heart, should not bathe without first consulting their medical advisor." After bathing, a vigorous use of the towel is very beneficial, and should be followed when necessary by moderate exercise till a gentle reaction sets in. The old notion about the danger of plunging into cold water when the body is heated, has long ago been exploded. In fact it is now clearly established that the colder the water the hotter should be the bathe. Fever patients, it is well known, never take cold even if wholly immersed for brief intervals in ice water. If the body is not already in a vigorous glow, bathing is sure to do more harm than good.

Daily Summer Bathing.

The Turks are good exemplars for more enlightened nations, in two respects, at least. The Mussulman does not drink whiskey, and he keeps his body clean. This cleanliness is demanded by his religion; and it is certainly equally obligatory on all Christians. The Turk is required by his religion to wash his head, face, neck, ears, feet, and even his teeth, fire times each day, as a preparation for the five calls to prayer! There is such a thing as "too much of a good thing," and we think our Mohammedan brethren overdo the bathing business. The necessity for bathing, or washing the whole body, is based on the fact that while we are constantly wasting away, actually decaying, particle by particle, more than one-half of this dead and putrid matter must pass off through the pores—a part of which is re-absorbed if not removed from the surface, of course entering again into the circulation, contaminating the blood. Indeed, no one can be really cleanly without such washings, which with propriety may be enjoyed daily, in ordinary cases, with decided benefit; of course not to produce a permanent chill. The increased use of water and pure air would promote purity of lives and cleanliness of person.

The Sun Cholera Medicine.

More than twenty years ago, when it was found that prevention of cholers was easier than cure, a prescription drawn up by eminent doctors was published in the New York Sun, and it took the name of The Sun cholers medi-

Our contemporary never lent its name to a better article. We have seen it in constant use for nearly two score years, and found it to be the best remedy for looseness of the bowels ever

yet devised.

No one who has this by him, and takes it in time, will ever have the cholera.

We commend it to all our friends. Even when no cholera is anticipated, it is an excellent remedy for ordinary summer complaints, colic, diarrhea, dysentery, etc.

Take equal parts of tucture of Cayenne pepper, tincture of opium, tincture of rhubarb, essence of peppermint, and spirits of camphor. Mix well. Dose, 15 to 30 drops in a little cold water, according to age and violence of symptoms, repeated every lifteen or twenty minutes until relief is obtained.—Journal of Commerce.

I had stopped for the night at a hotel in Southern Missouri, when another traveller hastened in whose dog had been bitten when a mile away, and its throat was then swollen equal in size with its head, and the animal was in great agony. Its owner asked for spirits of turpentine, which, being fornished, he applied repeatedly to the bitten part, until the dog became quiet, and by morning it was well. This traveller resides in the Ozark Mountain region of Arkansas, where he had, as he said, witnessed many such cures, not of animals only, but paralysis or appoplexy any day, and that nothing but a seton would relieve me. I had a perfect horror of that and was besitating about having one inserted, when you kindly sent me your Saraparalila, which I immediately begun to take three times a day. I suffered terribly with a most scute pain in the right side of my head, especially when I would read or write for any length of time, and on rising to my feet, I would be perfectly blind for several minutes, and would have to hold to something to prevent falling.

I am most happy to inform you that the pain in my head is entirely relieved; I suffer but seldom with my spine, and then not so acuitely. My appositie is now discontinually on sugar, as is done by the hunters among the Ozarks, who carry it in their pockets as they traverse that region where snakes do abound.—N. Y. Observer.

To CAN CORN.—To every six quarts of corn take one ounce of tartaric acid dissolved in boiling water. Cut the corn from the cob and put in sufficient water to cook; put the aid in while the corn is cooking; when done, seal airtight in tin cans or glass jars. To prepare for the table, pour off the sour water and save it; put in eanough fresh water to cook it; for every quart of corn, add one small teaspoonful of soda and let it stand a few minutes before cooking; while cooking, untin a teaspoonful of sugar: while cooking, put in a teasponful of sugar; if the corn turns yellow, there is too much soda; pour back some of the sonr water until it turns white again; when nearly done, season with salt, cream and butter, the same as fresh corn. Tin quart-cans are preferable to glass jars.

REMEDY FOR DAMP WALLS .- "Moisture may REMEDY FOR DAMP WALLS.—"Moisture may be kept from a brick wall by dissolving three-quarters of a pound of mottled soap in one gallon of boiling water, and spreading the hot solution steadily, with a large flat brush, over the surface of the brickwork, taking care that it does not lather. This is to be allowed to dry for twenty-four hours, when a solution formed of a quarter of a pound of alum dissolved in two gallons of water, is to be applied in a similar manner over the coasting of soan. The soan lar manner over the coating of soap. The soap and alum mutually decompose each other, and form an insoluble varnish, which the cain is un-able to penetrate. The operation should be performed in dry, settled weather."—Medical Paner.

EFFERVESCING FRUIT DRINKS.- Very fine EFFERYESCING FRUIT DRINKS.—Very fine drinks are prepared by putting strawberries, raspberries or blackberries into good vinegar, and then drawing it off and adding a new supply of fruit till enough flavor is secured. Keep the vinegar bottled, and in hot weather use it thus: Dissolve one half a teaspoonful or less of saleratus or soda in a tumbler, with very lit the water, till the lumps are all out. Then fill the tumbler two-thirds full of water and additional to the solid vines. the fruit vinegar. If several persons are to drink, put the fruit vinegar into each tumbler and dissolve the sods in a pitcher, and pour in-to the tumblers as each person is ready to drink; allow south it. delay spoils it.

To Make Ginger Beer —Two gallons of ginger beer may be made as follows: put two gallons of cold water into a pot upon the fire; add to it two ounces of good ginger, and two pounds of white or brown sagar. Let all this come to a boil, and continue boiling half an hour. Then skim the liquor, and pour it into a jay or tub, along with one sliced lemon, and half ounce of cream tartar. When nearly cold, put in a tea cupful of yaste to cause the liquor to work. The beer is now made; and after it is worked for two days, strain and bottle for use. Tie the corks down firmly.—Germantona Telegraph.

WATERMELON CARE.—I send the following: For the white part, take two cups of white sugar, one of butter, one of sweet milk, three and a half of flour, whites of eight eggs, two teaspoonsful cream tartar, one of soda, dissolved in a little warm water. For red part, take one cup of 1ed sugar, balf cup of butter, third of a cup sweet milk, two cups flour, whites of four eggs, teaspoonful cream tartar, half teaspoon soda, teacup of raisins; be careful to keep the red part around the tube of the pan, and the white around the edge.—Cor. Chicago Inter-Oceas.

To KEEP BREFSTEAKS .- Have the steaks cut To KEEP BREEFSTEARS.—Have the steaks cut about the usual thickness. Mix together some salt, sngar, and some finely powdered saltpeter. In an earthen jar lay a steak, and sprinkle it with this mixture; put on another, and sprinkle the same as before, and over all turn a plate with a heavy weight on it. This will form a brine of its own, and the meat will keep sweet in this way for a long time. This is a very good recipe for people who live away from cities. Do not let it freeze.

FRUIT CANNING.—Put a pint of warm water in a basin, and lay in a flannel folded several thicknesses, being careful that the flaunel is a little larger than the bottom of the dish. Place your empty lar on the flaunel, and pour in your fruit boiling hot. A large numer of cans can be filled without changing the water, with no danger of breaking. This simple method saves much time and trouble.—L. S. P.

A. A. Malling Mashington Av., City.— Dear Mellier: I have for some years been troubled with Catarrh, and for the law years been troubled with Catarrh, and for the law years have suffered sertionly with it. Noticing your advertise ment of Sarvoro's Rexuny filancial Curse, I decided to try It. I have need only two bottles, and as a result I feel so much relieved that J presume on our personal relations and write this to you and sak that you take some measures to get it more prominently before the public, that others may have such relief as I have. I have recommended it to quite rumber of my triends, all of whom have expressed to me their high estimate of its value and good effects with them.

I really hink it particu'arly adapted to wasts of St. Louis people, and they all ought to know of R, and heave who need it should ity. It i will fail the assemble as a sample to be given away will see it as many bottles.

Ty as me plan. Let the people have it; they need it. I believe I could seel Soub bottles myself—of course you could largely increase this number. Why not try it? Yours truit.

UNITED STATES CENTENNIAL DRY GOODS, CLOTHING, World's Exhibition, 1876.

CABINET ORGANS Unanimously assigned the

FIRST RANK

SEVERAL REQUISITES" Of such Instruments!

The MASON & HAMLIN ORGAN CO, have the honor to announce that the organs of their manufacture have been onanimously assigned "the FIRST RANK in the SEVERAL REQUISITES of instruments of the class" by the Judges at the CENTENNIAL EXHIBITION at Philadelphia, 1876, and are the ONLY INSTERMENTS OF THIS GENERAL CLASS AWARDED THIS RANK. This is offer the acyerat competition by the heat maker. sy for makers to advertise that they have received "first medals."

The differences in competing articles, and their comparative excellence, are recognized in the Reports of the Judges, from which the following is an extract:

"THE MASON & HAMLEN ORGAN CO."S CENIBLE OF CO."S HAMLEN ORGAN CO."S CENIBLE OF MASON AS HAMLEN ORGAN CO."S CENIBLE OF MASON AS HAMLEN ORGAN CO."S CENIBLE OF MASON AS HAMLEN ORGAN CO."S CENIBLE OF THE GLASS, viz. Sumceth ness and equal distribution of tone, scope of expression, resonance and einging quality, freedom and quickness in action of keys and bellows, with thoroughness of workmanship, combined with aimplicity of action." (Signed by all the Judges.) The Mason & Hamlin Organs are this declared to rank first, not in one of two respects only, but in the SEVERAL EEQUISITES of such instruments, and they are the ONLY ones assigned this rank. This triumph was not unexpected, for the Mason & Hamlin Cabinet Organs have uniformly been awarded the highest henors in competitions in America, there having been scarcely six exceptions in hundreds of competitions. They were awarded nighest hunors and

THE BEST FOR MAN OR BEAST.

When a medicine has infallibly done to work in millions of cases for more han a third of a century; when it has eached every part of the world; when numberless families everywhere con-ider it the only safe reliance in case of THE BEST OF ITS KIND. brings intelligence of a valuable horse saved, the agony of an awful scald or burn subdued, the horrors of rhemmatism overcome, and of a thousand-and-one other blessings and mercies performed by the old reliable Mexican Mustang Limiment.

All forms of outward disease are speedily cured by the

MEXICAN

Indied overy form of enternal distions.

It is the groatest remedy for the disorders and a cel de nts to which the
BRUTE CHEATION are subject that has
were been known. It cures
were been known. It cures

SEWING MACHINES CHEAPER THAN EVER!

The Genuine New PAMILY SINGER MACHINE can now be bought at my residence, assuit of Troy, at greatly reduced prices. This Machine entaring all competition, and is fully warranted for five years; and its fifteen to twenty years' use in families in this County, without costing one cent for repairs, and being always ready for use, relieves us from writing column after onlumn to explain the good qualities of come untired language Machine. The working and durability of the SINGER MACHINE evells its sales to more then all other Mechines in the world. OVER 250,000 MINGER MACHINES SOLD IN 1877, and more than 3,000000 of those Machines are now in mass.
